

On the Subject of Complicated Wires

These wires aren't like the others. Some have stripes! That makes them completely different. The good news is that we've found a concise set of instructions on what to do about it! Maybe too concise...

- Look at each wire: there is an LED above the wire and a space for a '★' symbol below the wire.
- For **each** Wire/LED/Star combination, use the table below to decide whether or not to cut the wire.
- Each wire may be striped with multiple colors.

Wire Color	—	LED	★	LED + ★
None	CUT	NO	CUT	Batteries > 1
Red	Serial # even	Batteries > 1	CUT	Batteries > 1
Blue	Serial # even	Parallel port	NO	Parallel port
Red + Blue	Serial # even	Serial # even	Parallel port	NO

See Appendix B for battery identification reference.

See Appendix C for port identification reference.
