

On the Subject of Mazes

This seems to be some kind of maze, probably stolen off of a restaurant placemat.

- Find the maze with matching circular markings.
- The defuser must navigate the white light to the red triangle using the arrow buttons.
- **Warning:** Do not cross the lines shown in the maze. These lines are invisible on the bomb.
- For quick reference, the unique **row positions** for the indicator circles are marked to the left of each maze.
